

SUMMARY: I am Godlaveeti Harinath, a Computer Science and Engineering (B.TECH)graduate (2025) from Parul University, Vadodara, Gujarat, seeking an entry-level opportunity in software development. I have basic knowledge of HTML and CSS and a strong willingness to learn new technologies. I am a quick learner with good analytical, communication, and teamwork skills, eager to contribute to an organization while continuously growing professionally.

GODLAVEETI HARINATH

Professional Experience

Phone:
+91 9390542843

E-Mail:
godlaveetiharinath82@gmail.com

Address:
Maharastra,Karadi,Pune

Skill Highlights

- Project Management
- Team Leadership
- Risk Management
- Budget Management
- Problem/Situation Handling
- Communication

Education

- B.TECH (CSE), Parul University/PIET (2025) – 65.4%
- Intermediate – 63.1%
- SSC – 87.0%

It Skills

- Programming & Markup: JavaScript, HTML, CSS
- Frameworks & Libraries: Node.js, Bootstrap
- Databases & Tools: MSSQL Server (2014/2017/2019), MongoDB, Google Colab, Jupyter Notebook
- Operating Systems: Windows Server 2012

Personal Details

Nationality : India
Date of Birth: 07:08:2004
Language: Telugu, Hindi, English
Gender: Male

PROFESSIONAL EXPERIENCE & PROJECTS:

1. Corizo

Data Science Intern

- Applied advanced machine learning techniques to real-world datasets utilizing Python, Google Colab, and Jupyter Notebook environments.
- Executed end-to-end data pipelines, including data cleaning, preprocessing, feature engineering, and predictive model development.
- Collaborated effectively with cross-functional teams to analyze complex data structures and present actionable business insights.

2. Wine Quality Project (Major Project)

- Analyzed chemical and physical properties of various wine samples to build a predictive classification model.
- Engineered data pipelines to evaluate physicochemical properties, optimizing model accuracy for quality assessment.

3. Stock Price Prediction (Minor Project)

- Academic Project Developed a predictive model forecasting stock prices by leveraging historical market datasets and machine learning algorithms.
- Managed the complete project lifecycle: data collection, rigorous preprocessing, feature engineering, and optimal model selection..

Declaration

I hereby declare that the above-mentioned information is correct up to my knowledge and I bear the responsibility for the correctness of the above-mentioned particulars.
